SHOWER ENCLOSURE FORMATS

There are some considerations when selecting a shower

- Space available
- Height available
- Size and shape
- Door opening
- Accessibility
- Existing pipework locations

Slider, pivot and bifold enclosures can be fitted with a side panel or can be fitted into a recess or alcove.

*Quick Fit does not apply to this shower door format.

Rosery Nova shower enclosures are designed to look great and provide a high quality and durable enclosure for any bathroom size or style.

Features

- One person installation
- Quick fit *where indicated
- Adjustable top roller
- 18-20mm adjustments for untrue walls
- Easy clean rollers
- Magnetic seal
- Profile cover caps
- Anti bumper block for smoother door closure
- Wall profile extension available
- Optional frameless side panels available
- Lifetime guarantee*

Shower Trays

When you choose a shower enclosure you will also need to select a matching shower tray from the variety of options available.

LOW PROFILE

Low profile trays have a height from the floor of 25-45 mm providing easy access and a minimalist look – this requires your waste pipework to be installed below your floor level.

STANDARD HEIGHT

Standard raised trays sit higher off the ground to provide space for the pipework.

LEVEL ACCESS

Level access trays allow for walk-in step-free access to a walk in shower enclosure or a wet room area. They are installed flush to the floor with a flush waste. All pipework is recessed below the tray.

PRE-FORMED TRAYS

Wetroom tray pre-formed boards can be used as a base onto which tiles are laid to provide a seamless look while being

strong and durable. This is an excellent choice for accessible bathrooms or for future proofing any family bathroom.

CUT TO SIZE TRAYS

Selected trays can be cut to size to fit any awkward spaces where a perfect fit is needed.

TRAY MATERIALS

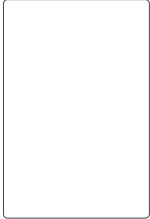

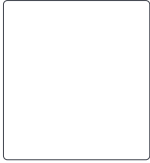

Acrylic provides a durable finish that's easy to clean while also resisting scratches and stains.

Stone Resin is made from stone combined with resin, which is moulded and polished when finished. An acrylic cap means the stone core is protected, and the surface is more scratch-resistant and durable.

Slate Effect Trays are selected for their natural aesthetic in the textured finish and variety of colours which mimic the natural material but is easy to clean, durable and resistant to chemicals.

Anti-Slip Trays offers peace of mind for all users but particularly in households with children or elderly residents to provide a safer shower experience.

Please Note These guarantees apply to goods installed in a domestic environment with reasonable usage. Any item installed in a commercial environment has a 1 year guarantee.

Guarantees are limited to product defects and failures arising from the manufacturing process and do not apply to products that have been damaged as a result of transit, misuse, incorrect installation or use of abrasive cleaning products.

Within the guarantee period we will resolve defects in materials or in the manufacturing process by either repairing the product, providing new goods and parts to you in replacement or refunding (up to but not in excess of) the original purchase price, as we may choose.

This guarantee is in addition to your statutory rights and is subject to the following conditions:

- The guarantee applies solely to the original installation under normal use and to the original purchaser only.
- The product must be installed and maintained in accordance with the instructions given in this user guide.
- The product must be inspected and issues reported before installation.
- If a service visit is required the product must be fully installed and connected to services.
- Repair under this guarantee does not extend the original expiry date.
- The guarantee on any replacement parts or product ends at the original expiry date.
- For trims, handles or consumable items we reserve the right to supply replacement parts only.

The guarantee does not cover:

- Call out charges for damage or defects caused by incorrect installation, frost damage, mildew, limescale, corrosion, lack of maintenance, improper use, inappropriate cleaning (please refer to our Care and Maintenance Instructions) or where no fault has been found with the product.
- Accidental or wilful damage.
- Compensation for loss of use of the product or consequential loss of any kind.
- Damage or defects caused if the product is repaired or modified by persons not authorised by us or our appointed representative.
- Wear and tear.
- Glass breakage or the coating on the glass. By its nature all glass has the potential to shatter therefore we only use toughened safety glass.
- Products purchased ex-showroom display.

IMPORTANT

Enclosures must be inspected for defects prior to installation. This Guarantee does not cover the costs of removal and/or reinstallation where a defect would have been discovered by inspection prior to installation.

CLEANING & MAINTENANCE

- All products should be cared for with a regular and suitable cleaning regime.
- The use of aggressive cleaning agents or abrasive materials should be avoided.
- Do not use any cleaning agents containing hydrochloric acid, formic acid, chlorine bleach or acetic acid, as these can lead to significant damage.
- A soft damp cloth and warm soapy water is sufficient.
- Thoroughly rinse your shower enclosure with clean water after cleaning.
