WARMHAUS MINERWA

THE PERFECT BOILER UPGRADE

- DISTINCTIVE FEATURES -

Long Life With Stainless Steel Heat Exchangers

It has a long service life with wide-channel, seamless, single-coil stainless steel main heat exchanger and stainless steel plate heat exchanger.

High Savings With 1/10 Modulation

Will modulate down to only 3 kW. Adjusts capacity according to energy demand.

7 Year Warranty

If the boiler is fitted with a magnetic filter, registered and serviced annually.

Low Pressure Operation

The MinerWa is suitable for low pressure operation with the boiler working to 0.3 Bar.

Valve Connection

Supplied with valved connection kit & tails.

Controls

Compatible with 240v and low voltage controls.

Compact & Light Weight

595x360x260mm - to fit in the tightest spaces. 26kg weight - ideal for boiler upgrades.

Flue

10m horizontal or 11m vertical flue run. The flue is black and UV rated.

A GREAT
LOOKING
GAS BOILER!

The sleek polymer black glass surface with touch activated control panel will look great in any location.
