# Floor Standing Brackets

### The Bracket Height

UIN

300mm radiator = 400mm bracket	9179
450mm radiator = 600mm bracket	9180
500mm radiator = 600mm bracket	9197
600mm radiator = 700mm bracket	9181
700mm radiator = 800mm bracket	9182

# Floor Standing Bracket Dimensions

## The Bracket Height

300mm radiator = 400mm bracket

450mm radiator = 600mm bracket

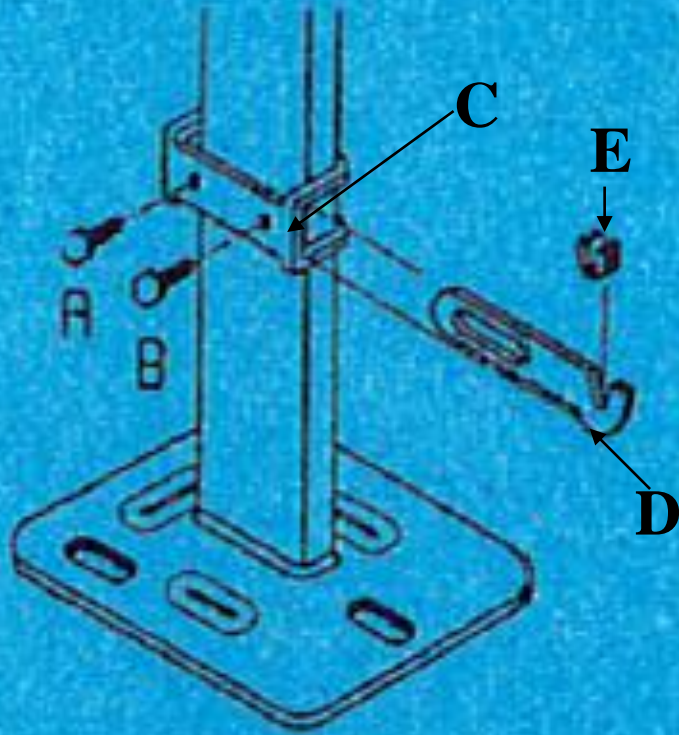

500mm radiator = 600mm bracket

600mm radiator = 700mm bracket

700mm radiator = 800mm bracket

## Assembly bottom bracket

FIG 1

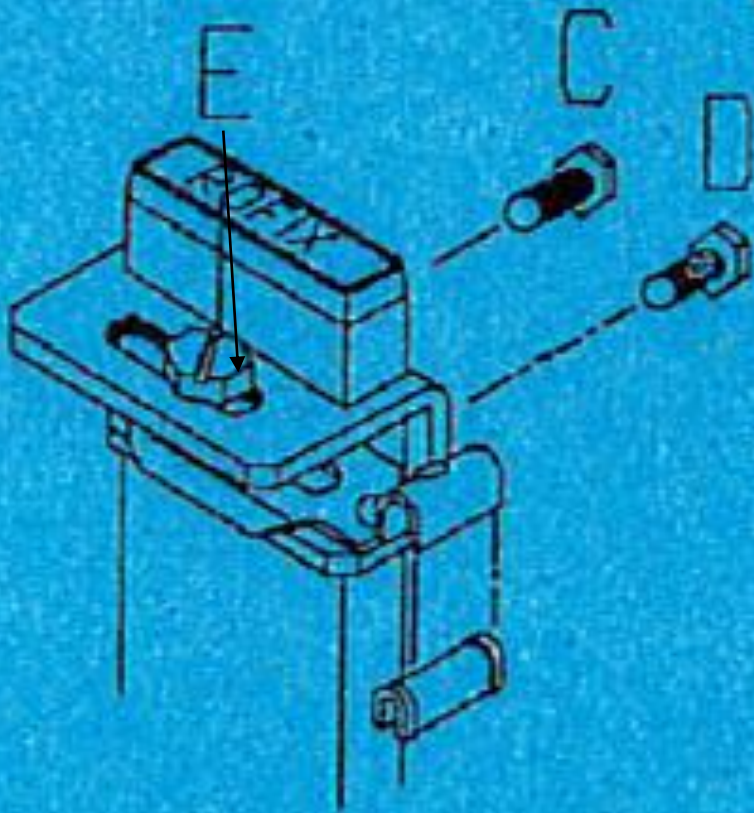

Place mounting bracket C over the main bracket stand and insert the adjustable support as shown in figure 1. Screw bolt A into the main bracket and through the slot in bracket D. Now screw securing bolt B through bracket C. Place saddle strip E into the adjustable support.

## Assembly Top bracket

FIG 2

Slip the top bracket over the main stem of the floor bracket.

Tighten screws C&D into the top bracket to secure it.

Assemble the adjustable top bracket E as shown in figure 2
