PE-X Pipes

Hewing GmbH

STATEMENT BY KIWA

This product certificate is issued on the basis of BRL K536 D "Plastics piping systems of PE-X intended for heating installations: radiator connections" issued on 1 June 2008 by Kiwa, including amendment sheet from 7 June 2012 in accordance with the Kiwa Regulations for Product Certification.

Kiwa declares that legitimate confidence exists that the by the producer manufactured PE-X Pipes comply with the technical specifications as laid down in this product certificate, provided that PE-X Pipes have been marked with the KOMO[®]-mark in the manner as indicated in this product certificate.

Bouke Meekma
Kiwa

This product certificate is only valid in combination with a Kiwa certified plastics piping system. The certificate is listed in the overview on the website of Stichting KOMO: www.komo.nl. Advice: consult www.kiwa.nl in order to ensure that this certificate is still valid.

PE-X Pipes

PRODUCT SPECIFICATION

PE-Xc SD4+, SD5 and with aluminum casing according to BRL 5606: Plastics piping systems of PE-X intended for heating installations: radiator connections.

The pipe dimensions as indicated in the table below belong to this certificate.

PE-X SD5 + aluminum casing (PE-Xc/adhesive/Al/ adhesive/PE-Xc)		PE-X SD4+ (PE-Xc/adhesive/EVOH/ PE-Xc) Color: natural, red		PE-X SD5 (PE-Xc /adhesive/EVOH/ adhesive/PE-Xc) Color: natural		PE-X SD5 (PE-Xc /adhesive/EVOH/ adhesive/PE-Xc) Color: Inside natural Outside: silver	
Nominal outside Diameter (mm)	Wall thickness (mm)	Nominal outside Diameter (mm)	Wall thickness (mm)	Nominal outside Diameter (mm)	Wall thickness (mm)	Nominal outside Diameter (mm)	Wall thickness (mm)
12	1,8	14	2,0	10	1,25	16	2,2
16	2,0	16	2,0	14	2,0	20	2,8
20	2,3	17	2,0	16	2,0	-	-
25	2,8	18	2,0	17	2,0	-	-
-	-	20	2,0	18	2,0	-	-
-	-	25	2,3	20	2,0	-	-
-	-	-	-	25	2,3	-	-

Remarks: the pipes can also be used for floorheating according BRL 5603

MARKING

The products shall be marked with the KOMO[®] mark.

Pipes

The minimum required marking on the pipes shall be:

- KOMO (or KOMO[®] word mark) + class 5 / 6 bar;
- the manufacturer's name, trade name, system name or certificate number of accompanying technical approval (system)certificate;
- material identification: PE-Xc;
- the build up of the pipe; PE-Xc/EVOH (for 4 layer pipe) or PE-Xc /EVOH/PE-Xc (for 5 layer pipes);
- nominal outside diameter and nominal wall thickness of the pipe in mm;
- production code.

The realization of the marks is as follows: clearly and indelible at intervals of not more than 2 m.

LOGISTICS

Production en assemblage of the system is laid down in the annex of the certification agreement.

APPLICATION AND USE

The products are intended to be used for piping systems for floor heating with an operating temperature profile according to class 5 of ISO 10508 and an allowable working pressure of maximum 6 bar.

RECOMMENDATIONS FOR CUSTOMERS

Check at the time of delivery whether:

- the supplier has delivered in accordance with the agreement;
- the mark and the marking method are correct;
- the products show no visible defects as a result of transport etc.

If you should reject a product on the basis of the above, please contact:

- Hewing GmbH
- and, if necessary,
- Kiwa Nederland B.V.

Consult the supplier's processing guidelines for the proper storage and transport methods.

CONSTRUCTION PRODUCTS REGULATIONS

If a construction product is subject to a European harmonised technical specification, the statements in this KOMO product certificate must not be used as a replacement for the CE marking on such construction product and/or for the associated obligatory Declaration of Performance.

WATER REGULATIONS ADVISORY SCHEME LTD. (WRAS)
MATERIAL APPROVAL

The material referred to in this letter is suitable for contact with wholesome water for domestic purposes having met the requirements of BS6920-1:2000 and/or 2014 'Suitability of non-metallic products for use in contact with water intended for human consumption with regard to their effect on the quality of the water'.

The reference relates solely to its effect on the quality of the water with which it may come into contact and does not signify the approval of its mechanical or physical properties for any use.

POLYETHYLENE - COMPONENTS.

5240

'Hewing MT PE-Xc/AL/PE-X multi layer pipe', consisting of white coloured extruded polyethylene outer layer, aluminium middle layer and natural (unpigmented) extruded polyethylene inner layer. For use with water up to 85°C.

APPROVAL NUMBER: 1106521

APPROVAL HOLDER: HEWING GMBH

The Scheme reserves the right to review approval.

Approval 1106521 is valid between June 2011 and June 2016

An entry, as above, will accordingly be included in the Water Fittings Directory on-line under the section headed, "Materials which have passed full tests of effect on water quality".

The Directory may be found at: www.wras.co.uk/directory

Water Regulations Advisory Scheme

WRAS MATERIAL APPROVAL - MATERIALS WHICH HAVE PASSED FULL TESTS OF EFFECT ON WATER QUALITY

The material referred to in this letter is suitable for contact with water for domestic purposes. **Approval of this material does not signify the approval of its mechanical or physical properties for any use.**

Manufacturers or applicants may only quote in their sales literature terms which are used in this letter, namely that; 'the material as listed, having passed the tests of effect on water quality, is suitable for use in contact with wholesome water'

This may be abbreviated to 'Water Regulations Advisory Scheme - Approved Material' or 'WRAS Approved Material'.

The scope of an Approval does not extend to rebranded materials unless otherwise agreed by the Scheme.

Use of the WRAS Approved Material Logo

Approval holders may use the WRAS Approved Material logo and make reference to any approval issued by WRAS Ltd. in respect of a particular material or range of materials provided the approval is, and remains valid.

Approval holders are entitled to use the logo on the packing, promotional literature and point of sale advertising Approved Materials.

Modifications to existing Approvals

It is a condition of WRAS Material Approval that NO changes or modifications to the Approved Material, be made without the Approval Holder first notifying WRAS Ltd. Full details of the proposed changes must be provided to the Scheme. Failure to comply with this condition will immediately invalidate a previously granted Approval.

Re-Approval

WRAS will write to you 1 year before the approval expires asking whether you would like to renew it. Please complete the relevant section of the MA3 application form which will be included with the letter and return to WRAS (via e-mail or post).

Please note it is the responsibility of the Approval Holder to ensure the Approval remains valid. WRAS Ltd. accepts no liability for the delay in granting approval where this is caused by circumstances outside of the Scheme's control.
